Issues

1. Were the disputed services subject to a specific fee schedule set in a contract between the parties that complies with the requirements of Labor Code §413.011?
2. Which reimbursement calculation applies to the services in dispute?
3. What is the maximum allowable reimbursement for the services in dispute?
4. Is the requestor entitled to additional reimbursement for the disputed services?

Findings

1. 28 Texas Administrative Code §134.404(e) states that: "Except as provided in subsection (h) of this section, regardless of billed amount, reimbursement shall be:
 - (1) the amount for the service that is included in a specific fee schedule set in a contract that complies with the requirements of Labor Code §413.011; or
 - (2) if no contracted fee schedule exists that complies with Labor Code §413.011, the maximum allowable reimbursement (MAR) amount under subsection (f) of this section, including any applicable outlier payment amounts and reimbursement for implantables."

No documentation was found to support the existence of a contractual agreement between the parties to this dispute; therefore the MAR can be established under §134.404(f).

2. §134.404(f) states that "The reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Inpatient Prospective Payment System (IPPS) reimbursement formula and factors as published annually in the Federal Register. The following minimal modifications shall be applied.
 - (1) The sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by:
 - (A) 143 percent; unless
 - (B) a facility or surgical implant provider requests separate reimbursement in accordance with subsection (g) of this section, in which case the facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 108 percent."

Review of the documentation finds that that the facility requested separate reimbursement for implantables; for that reason, the requirements of subsection (g) apply.

3. §134.404(g) states, in pertinent part, that "(g) Implantables, when billed separately by the facility or a surgical implant provider in accordance with subsection (f)(1)(B) of this section, shall be reimbursed at the lesser of the manufacturer's invoice amount or the net amount (exclusive of rebates and discounts) plus 10 percent or \$1,000 per billed item add-on, whichever is less, but not to exceed \$2,000 in add-on's per admission.
 - (1) A facility or surgical implant provider billing separately for an implantable shall include with the billing a certification that the amount billed represents the actual costs (net amount, exclusive of rebates and discounts) for the implantable. The certification shall include the following sentence: "I hereby certify under penalty of law that the following is the true and correct actual cost to the best of my knowledge."

Review of the documentation found supports that the following items were certified as required by (g):

				Total Supported Cost	Sum of Per-Item Add-on

The division finds that the facility supported separate reimbursement for these implantables, and that the cost invoices were certified as required. Therefore, the MAR is calculated according to §134.404(f)(1)(B).

4. §134.404(f)(1)(B) establishes MAR by multiplying the most recently adopted and effective Medicare Inpatient Prospective Payment System (IPPS) reimbursement formula and factors (including outliers) by 108%, **plus** reimbursement for items appropriately certified under §134.404(g). The Medicare IPPS payment rates are found at <http://www.cms.gov>, and the sum of the per-item add-on for which separate reimbursement was requested are taken from the table above.

- Documentation found supports that the DRG assigned to the services in dispute is 460, and that the services were provided at TROPHY CLUB MEDICAL CENTER. Consideration of the DRG, location of the

services, and bill-specific information results in a total Medicare facility specific allowable amount of \$21,249.66. This amount multiplied by 108% results in an allowable of \$22,949.63.

- The total cost for implantables from the table above is \$18,172.63. The sum of the per-billed-item add-ons does not exceed the \$2000 allowed by rule; for that reason, total allowable amount for implantables is \$18,172.63 plus \$1,817.26, which equals \$19,989.89.

Therefore, the total allowable reimbursement for the services in dispute is \$22,949.63 plus \$19,989.89, which equals \$42,939.52. The respondent issued payment in the amount of \$22,932.81. Based upon the documentation submitted, additional reimbursement in the amount of \$20,006.72 is recommended.

Conclusion

For the reasons stated above, the division finds that the requestor has established that additional reimbursement is due.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$20,006.72 plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this Order.
